

KWS PROGAS

Hybrid Fall Rye

Hybrid Forage Champion

KWS Progas is a hybrid fall rye made for the forage producer. Silage or grazing, this hybrid produces leading forage biomass with high digestability. KWS Progas has high energy values, increased crude protein and robust tillering ability ensuring livestock producers can feel confident this product is a cut above the rest.

Highlights

- Hybrid Fall Rye built for silage & grazing
- High yield potential
- Very high energy values
- Robust tillering potential
- High crude protein
- Opportunity for double cropping

Adaptability

KWS Progas hybrid fall rye is well suited to all the regions in Canada.

KWS is a registered trademark of KWS SAAT SE, Germany
